

BOARD OF CANVASS/SUPREME COURT JUSTICE RECOUNT

The Board met in the Third Floor Meeting Room of the Courthouse beginning on Wednesday, April 27, 2011 at 9:00 a.m. Republican Jon Olson, Democrat Ray Mallo and County Clerk Bruce Strama as Board of Canvass along with Carol Ziemer, Jacky Peterson, Mary Quante, Jennifer Strama and Virginia Brost conducted the recount of ballots and inspection of election material for the office of Supreme Court Justice from the April 5, 2011 Spring General Election. Others present included Wendy Bockin, Gordon Thielke, David Casey and Linda Osolkowski as observers. Action taken at the Recount is listed. The agenda had been posted at the Courthouse and on line on Monday, April 25, 2011.

Strama began by noting the rules and procedures to be followed to everyone present. He then asked that the representative from each candidate announce their presence in order that the person qualified to question Canvass Board members be identified. Wendy Bockin reported as Prosser rep and Dave Kasey as Kloppenburg rep. He also noted that those municipalities using optical scan equipment would be processed first as the City of Medford M100 scanner and the City of Medford clerk, Virginia Brost, would be present to operate the equipment until those municipalities were completed. The City of Medford's four reporting units will be counted at the same time, which Strama had reported to The GAB and candidate attorneys earlier.

CITY OF MEDFORD, WARDS – 1, 2, AND 10, - (District 1): 366 voters – 30 absentees – 34 requests Virginia Brost set up the M100 using the new card with only the Supreme Court Justice race and ran the City of Medford Test with reps and Board of Canvass. The inspectors statement was reviewed and ballot bag serial number listed in the minutes attached to the inspectors statement compared to the seal on the bag. The minutes attached reflected that the bag was opened on April 8th to draw down one ballot from the DRE roll and a new seal was placed on the bag with that seal on the bag at the time of the recount. Peterson and Jen Strama began reconciliation of the District 1 poll books with no discrepancies, while Board of Canvass counted optical scan ballots, separating the obvious absentee ballots. Brost began running ballots through scanner while Jen Strama began count on the DRE/RTAL paper rolls from the city. One ballot would not read on the M100 and was remade as it had previously been done in pencil and was very light/faded. Absentee envelopes were inspected with absentee log, number of requests and number of absentee ballots matching.
