

BE PREPARED FOR A TORNADO

Tornadoes can destroy buildings, flip cars, and create deadly flying debris.

FEMA

FEMA V-1010/March 2018

Tornadoes are violently rotating columns of air that extend from a thunderstorm to the ground.

Can happen anytime

Bring intense winds

Can happen anywhere

Look like funnels

IF YOU ARE UNDER A TORNADO WARNING, FIND SAFE SHELTER RIGHT AWAY

Go to a safe room, basement, or storm cellar.

If you can safely get to a sturdy building, do so immediately.

If there is no basement, get to a small, interior room on the lowest level.

Do not get under an overpass or bridge. You're safer in a low, flat location.

Stay away from windows, doors, and outside walls.

Watch out for flying debris that can cause injury or death.

Use your arms to protect your head and neck.
